

Color Palette

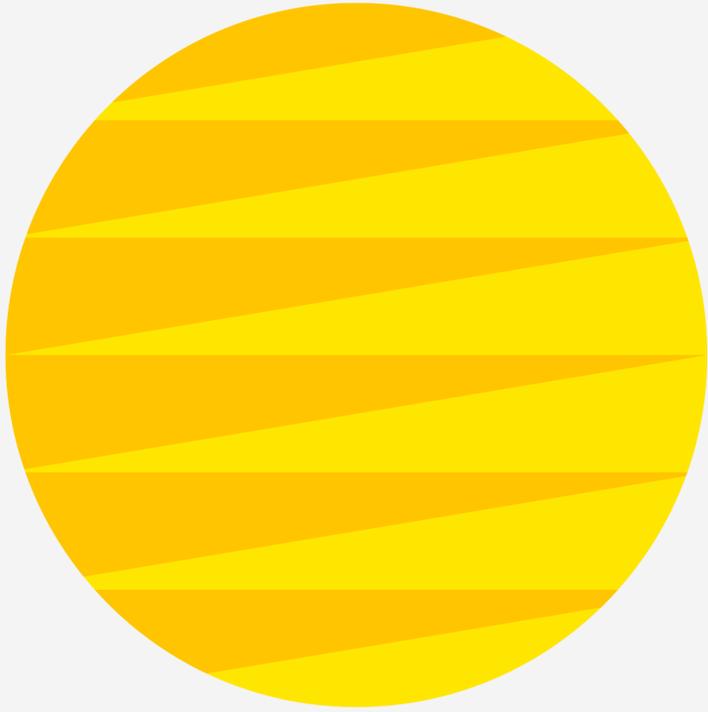

The color palette feels fresh, approachable, and fun, without feeling overly childish. It is an extension of the color palette of the brand. The mood of the app is clean white with flat green, and hits of color with meaning.

Green is for the header, navigation, and to show completed tasks.

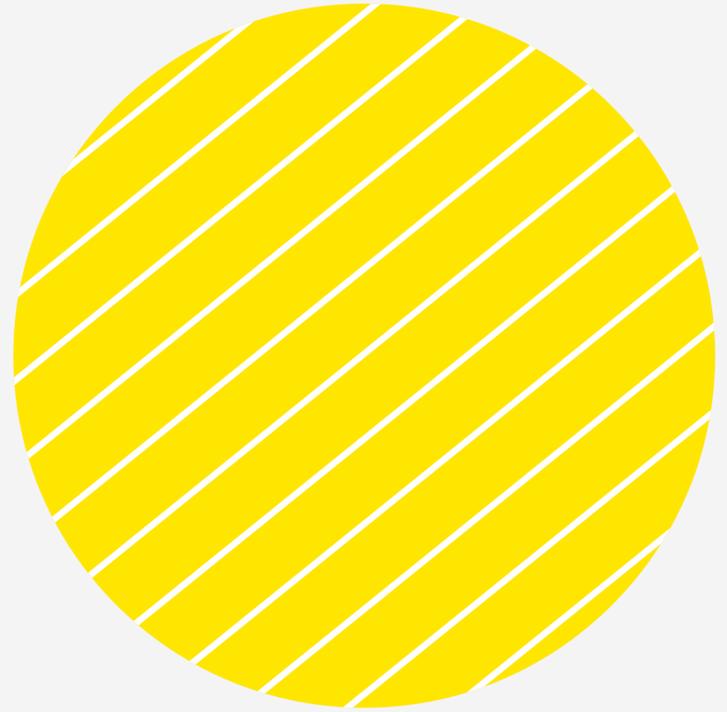

Blue is for interactive elements, such as icons, type, and buttons.

Orange is for notifications, and the current point in time as it relates to the interactive timeline.

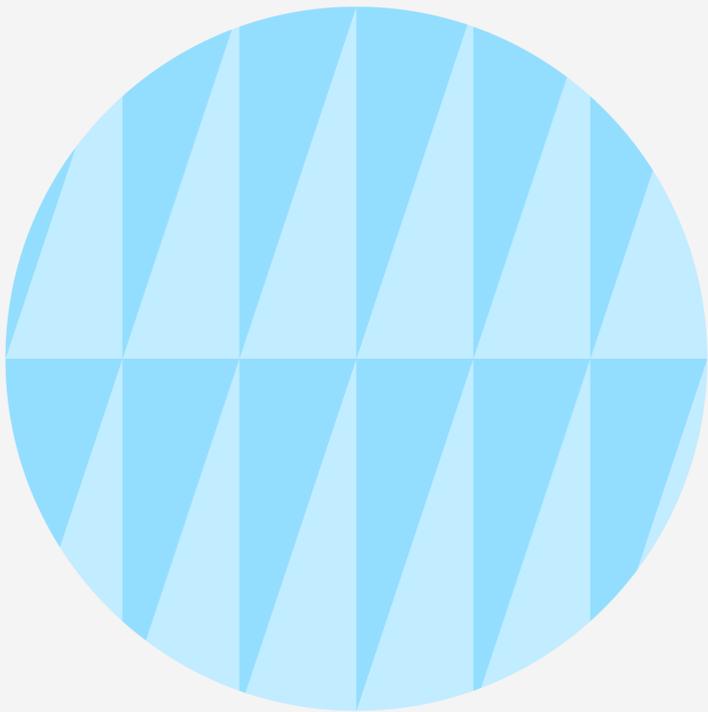

Yellow, green, orange, and blue are to engage the user with content and information.

Graphic Elements

Graphic elements in the app expand on the abstract, geometric characteristics of the logo. They often use the same 38.85° lines. Graphic elements have meaning, and are not used as decoration.

Typography

Circular is a geometric sans-serif, and a good fit for Food Computer. The geometric characteristics have a scientific feel, and look great in the numbers. It is also a little quirky, which gives it an approachable feel.
